Working Implementation Agreements for Open Systems Interconnection Protocols: Part 21 - Character Set

Output from the June 1991 NIST Workshop for Implementors of OSI

SIG Editor: **Wally Wedel, U.S. West Advanced Technologies**

Foreword

This part of the Working Implementation Agreements was prepared by the Character Set Working Group, formerly affilitated with the Upper Layer Special Interest Group of the National Institute of Standards and Technology (NIST) Workshop for Implementors of Open Systems Interconnection (OSI). See Procedures Manual for workshop charter. Text in this part has been approved by the Plenary of the above-named workshop.

Future changes and additions to this version of these Implementor Agreements will be published as a new part. Deleted and replaced text will be shown as strikeout. New and replacement text will be shown as shaded.

Table of Contents

Part 21 - Character Set Usage in OSI Applications 1

Part 21 - Character Set Usage in OSI Applications

Editor's Note - There were no changes to this Part. Because current text is too faint to reproduce, it was not included here; replacement text is anticipated soon and as soon as it is received, it will be included.
