NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY AND IEEE COMPUTER SOCIETY CO-SPONSORS FOR THE

OPEN SYSTEMS ENVIRONMENT
IMPLEMENTORS' WORKSHOP (OIW)

April 25, 1994

Dear Open Systems Environment Implementors' Workshop (OIW) Participant:

Plan to join us for the June 13-17, 1994 Workshop. The cutoff date for advance registration is May 20.

New and special activities planned for the June 1994 OIW include:

- The Convergence Study Group will continue its work and will bring before the Plenary a motion to become a OIW sanctioned SIG. There has been much activity internationally regarding convergence so you will want to keep abreast of this growing movement to merge the two predominate protocol suites.

- The multimedia SIG will begin work on the "Multimedia and Hypermedia: Model and Framework" document originating in SC18/WG1.

- Finally, the OIW is beginning to accept exeternally developed ISPs for review and harmonization before they are submitted to SGFS or other ISO TCs. These profiles may be of interest to those building products in these industry sectors.

NIST Special Publication 500-214, "Stable Implementation Agreements for Open Systems Interconnection Protocols, Version 7 housed on a CD ROM will be available for sale at $15 per CD ROM while supply lasts.

If you would like to order a CD ROM when you are advance registering, just circle it on the registration form you are sending to Rochelle Miller, IEEE Computer Society, and include the $15 per copy in your total registration fee.

If you need further assistance, feel free to call me at (301) 975-3608 or Brenda Gray at (301) 975-3664.

Very truly yours,

Ted Landberg, OIW Chairman
